TIPS ON HOW TO  
**MAKE IT  
HAPPEN**  
— JENNY DIAZ —

Here they are, I hope this can help you on your way to success.

**Step 1:**  
**What is it that you want?**

This is the first question you have got to ask yourself; What is it that I want? Sometimes we get complicated about it because we feel we don't have it figured out and we think "we have to have it all figured out before we even decide what we want". Don't stress yourself; really you don't have to have it all figure out; your first step is to put a thought there, an idea or a concept of what is it that you want; and I highly advise you to get a piece a paper and start writing down the ideas or the concepts that you want; this will help you to get it out of your head; start with that; It can be as simply as to have a beter life, to do beter in business; to become more stable; to have a x car, to take that vacation you always wanted or to make x amount of money on your business and this is the first step; to identify what it is that you want; it will help you to move towards what you want to achieve.

TIPS ON HOW TO  
**MAKE IT  
HAPPEN**  
— JENNY DIAZ —

## **Step 2:** **How bad you want it?**

Is the second point; on this point you find the desire to achieve what you want; in here INTENTION takes place.

**What is Intention?** intention is something you mean to do; in the Webster dictionary we found the following definitions.

### **Intention:**

- What one intent to do or bring about.

And **Intent** means:

- To have in mind as a purpose or goal: Plan.
- To direct the mind on.

This word comes from Latin intendere to stretch out, direct, aim at. And to go back to the word Intention

Again, **Intention means:**

1. What one intent to do or bring about.
2. A determination to act in a certain way: Resolve.

And on this step, you don't worry, and you don't put doubts on it, there is **NO** negative thought here on how you will do it, if it will happen or not; also, is important to have the mindset to resolve any barrier you may encounter on the way to make it a reality. You just decide you are going to go for it and achieve it. Is that simple.

### **Step 3: MAKE IT HAPPEN**

Now you make a plan; and a plan can be as simple as to find ways that would help you achieve what you want; example if you want to be a singer; you can enroll on singing classes; If you want to have more customers on your business; you can enroll on different networking business groups to promote and so on, you get the idea; I highly suggest you do this, starting with simple steps that you can easily do; working it out towards more complicated steps if they are necessary to achieve what you want. Again, I highly suggest you write down the actions you can take to achieve your goals; it is vital to get it out of your head; otherwise, this can get mixed and lost with any other thoughts you may have. And remember DON'T WORRY; your mind may trick you, sending you negative thoughts, don't worry; you continue what you set your mind to; your mind will eventually calm down and you will achieve what you want.
